

Wisconsin FAAS Team presents:

## **Waukesha Chapter, IMC Club**

Bi-monthly meeting of the IMC Club at Waukesha County Airport.

This month's scenario: "Frozen Pipes." You are on a cross-country from Madison Wisconsin (KMSN) to Warren-Youngstown Ohio (62D). You departed KMSN in VFR conditions, and KYNG is reporting IFR. You are 100 NM west of Youngstown in a Piper Archer; and your airspeed suddenly drops to zero (even though your pitot heat appears to be on. What do you do?

The scenario will be loaded into Spring City's Redbird FMX Simulator for you to fly through the adventure.

Light refreshments will be served

**Directions:** Take I-94 to Exit 294. Go South on Pewaukee Road to Northview Avenue (traffic light at SE end of Waukesha Airport). Turn right (West) on Northview, then left at Waukesha Airport sign (Aviation Drive). Follow Aviation Drive to Terminal.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
